

Koushiki Bannerjee

**WASH Officer, Monitoring and
Evaluation Focal Point - UNICEF**

Koushiki is an accomplished WASH professional with over 12 years of diverse experience in water, sanitation, and hygiene (WASH) programs, climate resilience, and community development. Currently serving as a WASH Officer and Monitoring and Evaluation Focal Point at UNICEF India. She drives strategic planning, program execution, and impact evaluation for nationwide WASH initiatives.

During a stretch assignment as WASH Specialist in Libya, Koushiki led climate resilience programming under the UN Mission, contributing to humanitarian-development nexus solutions. With expertise in project design, data analysis, and advocacy, Koushiki has worked extensively to implement innovative solutions across urban and rural landscapes. Her previous roles include impactful contributions at SNEHA, Antarang Foundation, and the Piramal Foundation, where she spearheaded projects in health education, emotional resilience, and youth employability.

A former Gandhi Fellow, Koushiki gained hands-on experience in strategic planning and grassroots leadership. Known for multitasking, analytical skills, and strategic execution, Koushiki is passionate about driving sustainable WASH programs that empower communities and promote climate resilience. With a deep commitment to improving lives, Koushiki continues to deliver transformative solutions in the WASH sector.
