

Jitin Vasudeva

**Executive Engineer - Punjab Water Supply
and Sewerage Board, Jalandhar**

Jitin is an Executive Engineer with the Punjab Water Supply and Sewerage Board in Jalandhar, bringing 13 years of experience in the water and sewerage sector. He specializes in the planning, design, and execution of water supply, stormwater, and sewerage projects, overseeing them from conceptualization to commissioning.

Jitin has managed the construction of several Sewage Treatment Plants (STPs) and Water Treatment Plants (WTPs) across Punjab, including leading the World Bank-aided Bulk Water Supply Project in Amritsar, involving a 440 MLD Water Treatment Plant, and the 24/7 Water Supply Project in Jalandhar, which includes a 275 MLD Water Treatment Plant.

Jitin additionally oversees the operations and maintenance of water supply and sewerage schemes utilizing advanced technologies like UASB, WSP, MBBR, ASP, and SBR. He holds a BE in Civil Engineering, a Master's in Environmental Engineering, and is pursuing a PhD in Environment
